

8.2% GDP growth an outcome of reforms taken by govt: CII

The 8.2 per cent economic growth in the first quarter of 2018-19 is an outcome of key reforms like GST and liberalisation of FDI norms initiated by the government, CII said on Tuesday. According to the chamber, increase in private investment and enhanced government spending will help India garner a GDP growth of 7.3-7.7 per cent for the ongoing financial year.
