

Seeking Space for Jan Aushadhi

The prime minister, at a review meeting last week, pulled up three BJP state governments for going slow on opening his signature Jan Aushadhi Kendras, which are supposed to provide affordable medicines to the people. Haryana, Maharashtra and Goa were asked to immediately sort out issues with the Centre on the issue. The PM said all states should provide the minimum space required to open Jan Aushadhi Kendras on state government premises or in the hospitals.
