

Chennai Metro phase-1 is done

Chennai, February 10

Prime Minister Narendra Modi on Sunday inaugurated the final 10-km stretch of the Chennai Metro project, between AG-DMS and Washermanpet, via a video conference from Tiruppur. Now, the entire 45-km first phase of the rail network is up and running. It has been a bumpy ride for the ₹14,600-crore project, hit by delays in land acquisition, roads caving in and cost escalations. **PIB**
