

# ‘India will remain world’s fastest-growing economy’

PRINCIPAL ECONOMIC adviser in the ministry of finance Sanjeev Sanyal said on Saturday that the growth rate will be affected in next reading, but India would remain the world's fastest growing major economy, as he countered scepticism over GDP growth rate, reports **PTI**. India's economy grew at 8.2% in the April-June quarter of 2018-19, according to government data released on Friday.
