SYMPOSIUM ON DIABETOLOGY, ENDOCRINOLOGY AND METABOLISM  
INAUGURATED

New Delhi, Bhadra 04, 1910  
August 26, 1988

Lt Gen K.D. Kapur, PHS, Director General, Armed Forces Medical Services inaugurated a three-day symposium on Diabetology, Endocrinology and Metabolism as a part of continuing medical education at Vigyan Bhawan in New Delhi today. The symposium has been organised under the aegis of Directorate General, Armed Forces Medical Services. More than 400 Medical scientists from defence services and eminent medical scientists from premier medical institutions of India are taking part in the deliberations.

Addressing the delegates, Lt Gen K.D. Kapur said that due to advancement in Electron Microscopy, Neuro-Radiology, Histo-Chemistry and many other investigational and parameteric procedures, an explosion of knowledge has taken place in the field of Diabetology, Endocrinology and Metabolic disorders over the last decade. He noted that the Armed Forces Medical Services have also contributed their mite in this advancement and have completed many research projects which are of immense value.

Earlier, Maj Gen Y.R Sachdev, AVSM, Chief Consultant in medicine welcomed the deligates.
